LUZ DE HOGAR

ES Al inicio de la cultura occidental, las familias de nuestros antepasados griegos y romanos, y de muchos pueblos indoeuropeos, se reunían alrededor de una hoguera como sinónimo de pureza, vida y protección. SÜLION consigue transmitir esa sensación de seguridad y calma a través de su colección de iluminación decorativa Luz de hogar. La luz, y su calor, puestos en el centro, para crear sensaciones y momentos a su alrededor que perdurarán en nuestra memoria para siempre.

Encontramos la pureza en sus líneas, a través de trazos simples que resaltan la belleza de sus formas, y la protección, en sus colores básicos, que combinan con la fuerza de sus materiales obteniendo una colección que refleja la personalidad del hogar, la vida que nace de su luz.

EN In the beginning of the western culture, families of ancient greeks and romans, and plenty of indo-european villages, used to gather around a bonfire which meant pureness, life, and protection. SÜLION manages to imitate this feeling of security and calm through their collection of decorative lighting "Luz de hogar". The light and its heat, placed in the middle to create feelings and livings around it which will remain in our memory forever.

We find pureness in their lines, through their simple traits which remarks the beauty of their shapes, and the protection, in their basic colors, that match with the power of the materials giving a collection that shows the personality of the home, life is born from their light.

UNA VIDA DE LUZ

ES La evolución consiste en una serie de transformaciones continuas que va experimentando la naturaleza y los seres que la componen. Esto es precisamente lo que Carlos y Regina Schuller, fundadores de SÙLION, han ido haciendo a lo largo de estos últimos 50 años, adaptándose a los continuos cambios, pero siempre con un mismo objetivo: crear espacios únicos que destilen personalidad.

La luz de SÙLION se enciende en 1966, cuando Carlos y Regina abren su primer taller de ensamblado de lámparas en Madrid, al que llamaron "Lámparas Schuller" y que, poco a poco, fue creciendo hasta convertirse en un referente en el diseño y la confección de lámparas artesanales. Por sus manos han pasado las últimas tendencias en iluminación decorativa de los años 80 y 90, desde farolitos, hasta sus tan exitosas lámparas florentinas y Tiffany, que exportaron al resto de países de Europa, y también a Asia, África y Latinoamérica.

El estilo aplicado en cada diseño y el cuidado en la elección de sus materiales puestos al servicio de la luz, junto con el tesón y el esfuerzo de la familia Schuller, han llevado a SÙLION a convertirse en lo que es hoy en día.

EN Evolution is made of a bunch of continuous changes in the nature and its living beings. This is exactly what Carlos and Regina Schuller, founders of SÙLION, have been doing these last 50 years, adapting to the continuous changes, but always with the same target: create unique spaces with strong personality.

The light of SÙLION was turned on in 1966, when Carlos and Regina Schuller opened their first workshop of lamps assembly in Madrid, they named it "Lámparas Schuller", and step by step started growing until it was leader in design and assembly of handmade lamps. By their hands last trends have passed of the years 80 and 90, from small lamps to successful Florentine lamps and Tiffany, which they exported to other countries of Europe, and to Asia, Africa and Latin America.

The style applied in each design and the careful selection of the materials used for the lights, allied with the hard work and the effort of the Schuller family, have transformed SÙLION in what it is nowadays.

É precisamente isso que Carlos e Regina Schuller, fundadores do SÙLION, têm feito nos últimos 50 anos, adaptando-se a mudanças contínuas, mas sempre com o mesmo objetivo: criar espaços únicos que exalem personalidade.

A luz SÙLION foi acesa em 1966, quando Carlos e Regina abriram em Madrid a sua primeira oficina de montagem de lâmpadas, que chamaram de "Lâmpadas Schuller" e que, aos poucos, foi se tornando uma referência em design e fabricação de lâmpadas feitas à mão. As últimas tendências em iluminação decorativa dos anos 80 e 90 passaram por suas mãos, desde as lanternas até as luminárias Florentinas e Tiffany de grande sucesso, que exportou para outros países europeus, além da Ásia, África e América Latina.

O estilo aplicado em cada desenho e o cuidado na escolha dos materiais a serviço da luz, aliados à tenacidade e esforço da família Schuller, fizeram com que a SÙLION se tornasse o que é hoje.

C'est précisément ce qu'ont fait Carlos et Regina Schuller, fondateurs de SÙLION, au cours des 50 dernières années, en s'adaptant aux changements continus, mais toujours avec le même objectif: créer des espaces uniques qui respirent la personnalité.

La lumière de SÙLION a été allumée en 1966, lorsque Carlos et Regina ont ouvert leur premier atelier d'assemblage de lampes à Madrid, atelier qu'ils ont appelé «Lámparas Schuller» et qui, petit à petit, est devenu une référence dans la conception et la fabrication de lampes artisanales. Les dernières tendances de l'éclairage décoratif des années 80 et 90 sont passées entre ses mains, tant pour les lanternes, comme pour les lampes florentines et Tiffany à succès, qu'il a exportées dans d'autres pays européens, ainsi qu'en Asie, en Afrique et en Amérique latine.

Le style appliqué dans chaque conception et le soin dans le choix des matériaux au service de la lumière, ainsi que la ténacité et l'effort de la famille Schuller, ont conduit SÙLION à devenir ce qu'elle est aujourd'hui.
