# UNA VIDA DE LUZ

**ES** La evolución consiste en una serie de transformaciones continuas que va experimentando la naturaleza y los seres que la componen. Esto es precisamente lo que Carlos y Regina Schuller, fundadores de SÛLION, han ido haciendo a lo largo de estos últimos 50 años, adaptándose a los continuos cambios, pero siempre con un mismo objetivo: crear espacios únicos que destilen personalidad.

La luz de SÛLION se enciende en 1966, cuando Carlos y Regina abren su primer taller de ensamblado de lámparas en Madrid, al que llamaron "Lámparas Schuller" y que, poco a poco, fue creciendo hasta convertirse en un referente en el diseño y la confección de lámparas artesanales. Por sus manos han pasado las últimas tendencias en iluminación decorativa de los años 80 y 90, desde farolitos, hasta sus tan exitosas lámparas florentinas y Tiffanys, que exportaron al resto de países de Europa, y también a Asia, África y Latinoamérica.

El estilo aplicado en cada diseño y el cuidado en la elección de sus materiales puestos al servicio de la luz, junto con el tesón y el esfuerzo de la familia Schuller, han llevado a SÛLION a convertirse en lo que es hoy en día.

**EN** *Evolution is made of a bunch of continuous changes in the nature and its living beings. This is exactly what Carlos and Regina Schuller, founders of SÛLION, have been doing these last 50 years, adapting to the continuous changes, but always with the same target: create unique spaces with strong personality.*

*The light of SÛLION was turned on in 1966, when Carlos and Regina Schuller opened their first workshop of lamps assembly in Madrid, they named it "Lámparas Schuller", and step by step started growing until it was leader in design and assembly of handmade lamps. By their hands last trends have passed of the years 80 and 90, from small lamps to successful Florentine lamps and Tiffanys, which they exported to other countries of Europe, and to Asia, Africa and Latin America.*

*The style applied in each design and the careful selection of the materials used for the lights, allied with the hard work and the effort of the Schuller family, have transformed SÛLION in what it is nowadays.*

**PT** A evolução consiste em uma série de transformações contínuas pelas quais passam a natureza e os seres que a compõem. É precisamente isso que Carlos e Regina Schuller, fundadores do SÛLION, têm feito nos últimos 50 anos, adaptando-se a mudanças contínuas, mas sempre com o mesmo objetivo: criar espaços únicos que exalem personalidade.

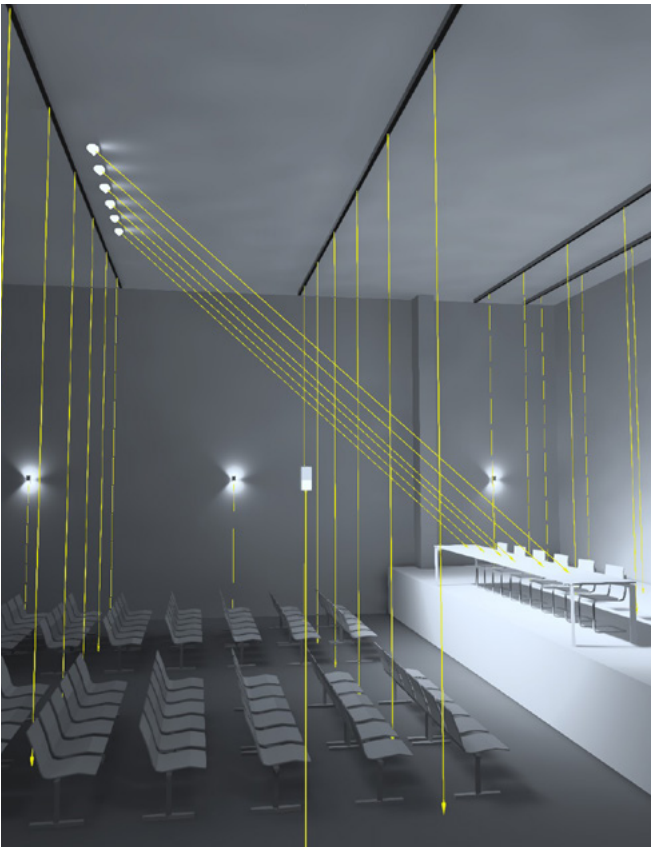

A luz SÛLION foi acesa em 1966, quando Carlos e Regina abriram em Madrid a sua primeira oficina de montagem de lâmpadas, que chamaram de "Lâmpadas Schuller" e que, aos poucos, foi se tornando uma referência em design e fabricação de lâmpadas feitas à mão. As últimas tendências em iluminação decorativa dos anos 80 e 90 passaram por suas mãos, desde as lanternas até as luminárias Florentinas e Tiffany de grande sucesso, que exportou para outros países europeus, além da Ásia, África e América Latina.

O estilo aplicado em cada desenho e o cuidado na escolha dos materiais a serviço da luz, aliados à tenacidade e esforço da família Schuller, fizeram com que a SÛLION se tornasse o que é hoje.

**FR** L'évolution consiste en une série de transformations continues que subissent la nature et les êtres qui la composent. C'est précisément ce qu'ont fait Carlos et Regina Schuller, fondateurs de SÛLION, au cours des 50 dernières années, en s'adaptant aux changements continus, mais toujours avec le même objectif: créer des espaces uniques qui respirent la personnalité.

La lumière de SÛLION a été allumée en 1966, lorsque Carlos et Regina ont ouvert leur premier atelier d'assemblage de lampes à Madrid, atelier qu'ils ont appelé «Lámparas Schuller» et qui, petit à petit, est devenu une référence dans la conception et la fabrication de lampes artisanales. Les dernières tendances de l'éclairage décoratif des années 80 et 90 sont passées entre ses mains, tant pour les lustres, comme pour les lampes florentines et Tiffany à succès, qu'il a exportées dans d'autres pays européens, ainsi qu'en Asie, en Afrique et en Amérique latine.

Le style appliqué dans chaque conception et le soin dans le choix des matériaux au service de la lumière, ainsi que la ténacité et l'effort de la famille Schuller, ont conduit SÛLION à devenir ce qu'elle est aujourd'hui.

# DÉJANOS ILUMINAR TU VIDA

**ES** En SÛLION damos luz a tus proyectos de renovación y reforma de hogares, oficinas, restaurantes, hoteles, etc. Nuestro equipo de lighting designers te acompañará en el desarrollo de tus ideas transformándolas en espacios vivos y con personalidad propia.

Trabajamos para ofrecerte las mejores soluciones de iluminación y ventilación, sin dejar de lado la eficiencia, la durabilidad y la elegancia. Entendemos la luz como energía que tiene el poder de transformar una casa en un hogar y la capacidad de enriquecer cada espacio creando emociones y sensaciones únicas.

**PT** Na SÛLION damos origem aos seus projetos de renovação e reforma de habitações, escritórios, restaurantes, hotéis, etc. A nossa equipa de designers de iluminação irá acompanhá-lo no desenvolvimento das suas ideias, transformando-as em espaços habitacionais com personalidade própria.

Trabalhamos para lhe oferecer as melhores soluções de iluminação e ventilação, sem descurar a eficiência, durabilidade e elegância. Entendemos a luz como a energia que tem o poder de transformar uma casa em um lar e a capacidade de enriquecer cada espaço criando emoções e sensações únicas.

**EN** At SÛLION we give light to your projects of renewal for homes, offices, restaurants, hotels... Our team of lighting designers will help you in the development of your ideas, transforming them into living places and with their own personality.

We offer the best solutions for lighting and ventilation, keeping in mind efficiency, durability, and elegance. We understand the light as energy, that have the power to transform a house in a home, and is also able to make each room better, creating unique feelings and sensation.

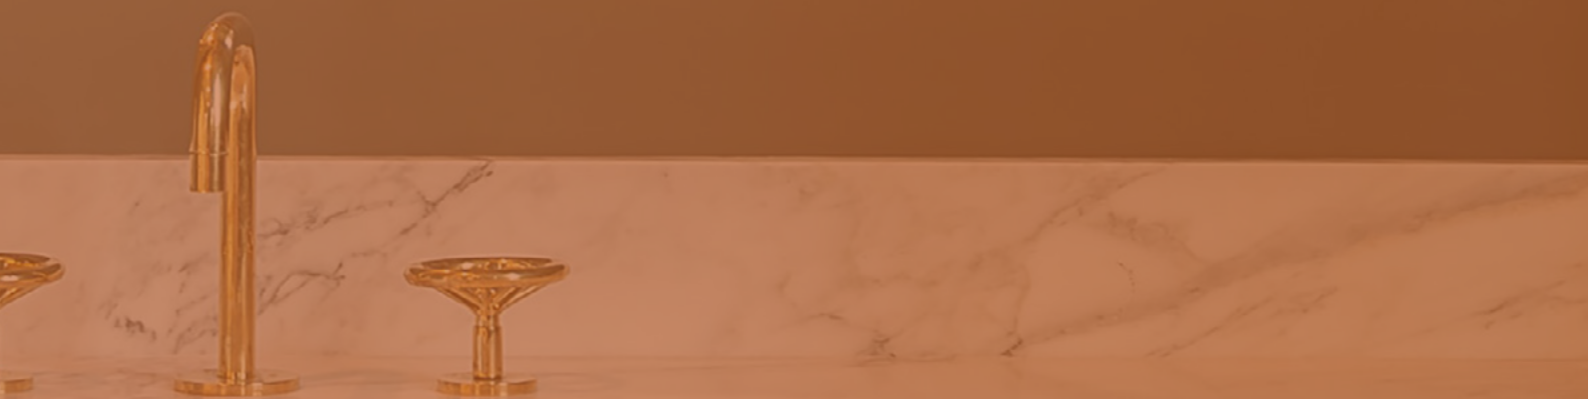

**FR** Chez SÛLION nous donnons naissance à vos projets de création et de réforme de foyers, bureaux, restaurants, hôtels, etc. Notre équipe de "lighting designers" vous accompagnera dans le développement de vos idées, en les transformant en espaces de vie ayant leur propre personnalité.

Nous travaillons pour vous offrir les meilleures solutions d'éclairage et de ventilation, sans négliger l'efficacité, la durabilité et l'élégance. Nous comprenons la lumière comme une énergie qui a le pouvoir de transformer une maison en un foyer et la capacité d'enrichir chaque espace en créant des émotions et des sensations uniques.

A modern interior scene featuring a large circular mirror with a black frame. To the right of the mirror, a glowing spherical light fixture is mounted on a light-colored wall. In the upper left, a potted plant with large green leaves is visible. Below the mirror, a countertop with a speckled pattern and a black faucet is partially shown. The overall aesthetic is clean and contemporary.

# LINEALES

La versatilidad es esencial para ejecutar los proyectos de la manera más eficiente. La serie LINE se adapta de forma camaleónica a cualquier espacio, permitiendo seleccionar color, tamaño y tipo de instalación para iluminar según las necesidades actuales, pero siempre pensando en las del mañana.

## Medidas Estándar

## Medidas personalizables

Disponemos de tamaños de corte a medida a partir de 7cm. Medida máxima 5m. Consultar condiciones.

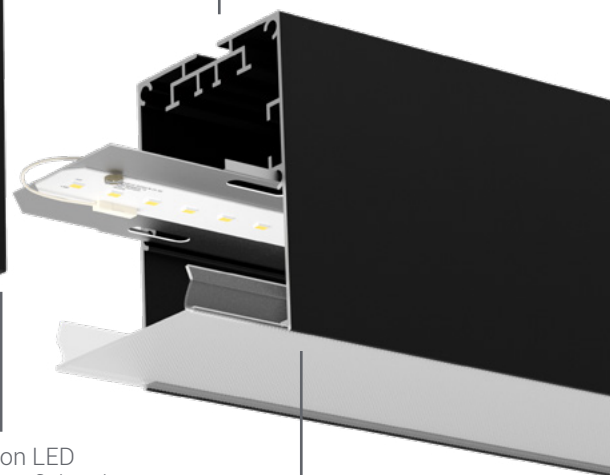

## Estructura

Los lineales LINE, cuentan con una estructura de aluminio disponible en 3 colores.

## LED

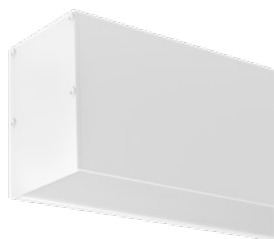

LINE cuenta con LED Tridonic de alta eficiencia. Disponible en 4000K. Bajo pedido 2700K, 3000K y 5000K.

## Difusores

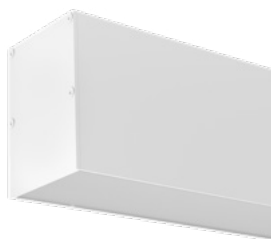

El confort visual es básico en la iluminación técnica. LINE cuenta con 8 opciones de difusores y lentes para adaptarse a las distintas necesidades de cada proyecto.

## DIFUSORES

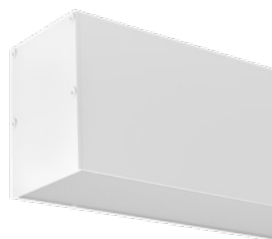

**OPAL**  
Policarbonato

Difusor opalescente que consigue un efecto de iluminación homogéneo y equilibrado.

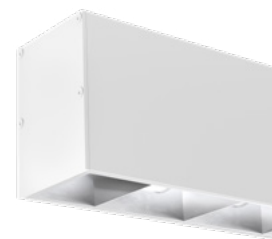

**MIC - Microprismático**  
Policarbonato

Difusor microprismático que reduce el deslumbramiento, dando un plus en el confort visual.

**UGR9 - UGR <19**  
Policarbonato

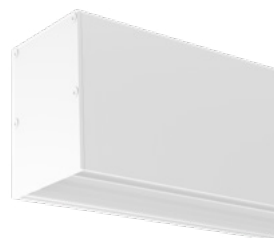

Difusor microprismático con confort visual óptimo, antideslumbramiento sin perder rendimiento lumínico.

**LAMA - Lamas**  
Metacrilato acrílico y aluminio

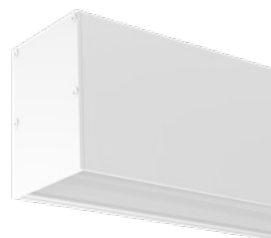

Gracias al difusor con celdas conseguimos un gran confort con un diseño más tradicional pero incorporando la tecnología y el rendimiento LED.

## LENTES

**INTE - Intensivo**  
Metacrilato acrílico

Difusor opalescente que consigue un efecto de iluminación homogéneo y equilibrado.

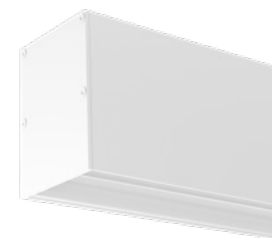

**EXTE - Extensivo**  
Metacrilato acrílico

Difusor microprismático que reduce el deslumbramiento, dando un plus en el confort visual.

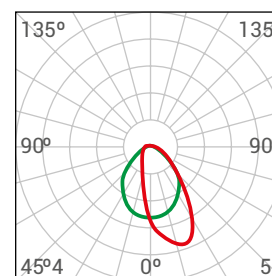

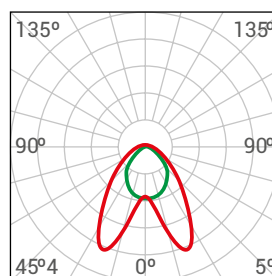

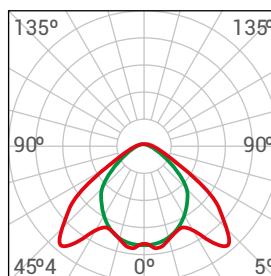

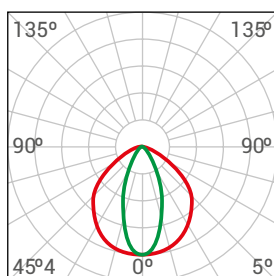

**DASI - Doble asimétrico**  
Metacrilato acrílico

Difusor microprismático con confort visual óptimo, antideslumbramiento sin perder rendimiento lumínico.

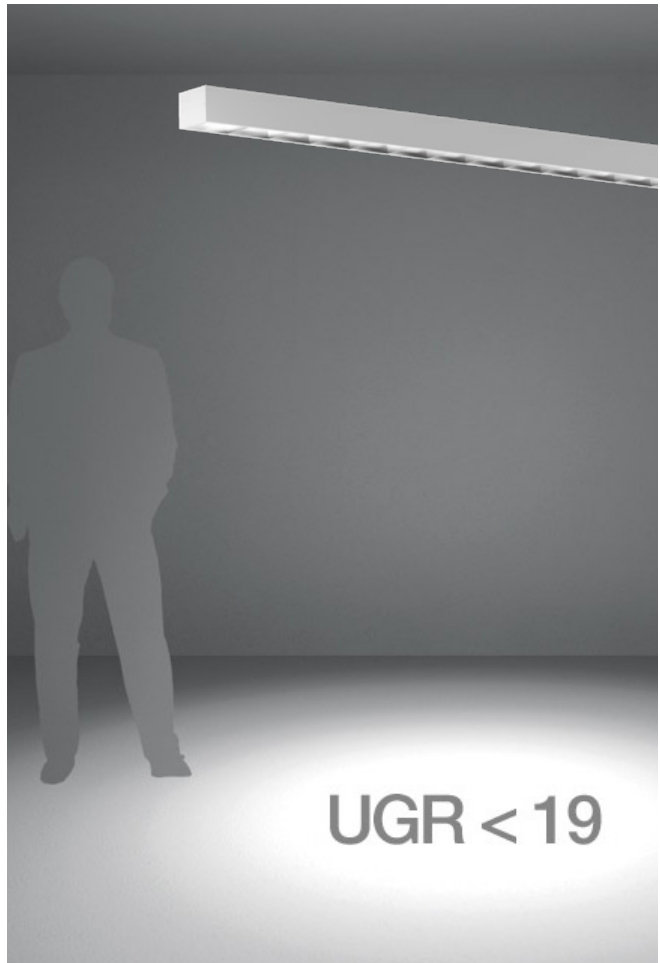

**ASIM - Asimétrico**  
Metacrilato acrílico

Gracias al difusor con celdas conseguimos un gran confort con un diseño más tradicional pero incorporando la tecnología y el rendimiento LED.

## UGR 19

**ES** El UGR (Unified Glare Rating) o Índice de Deslumbramiento Unificado es un valor comprendido entre 10 y 30, que expresa el deslumbramiento que provoca una fuente de luz. Se trata de un dato fundamental para la realización de proyectos de iluminación. En el caso de iluminar lugares tan comunes como oficinas, salas de personal, zonas de lectura, aulas, bibliotecas o salas de conferencia será necesario un UGR 19.

## Sistema de regulación DALI

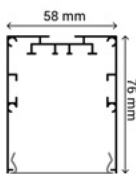

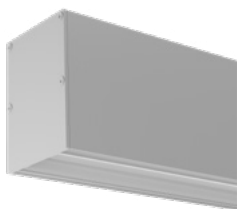

**ES** La regulación DALI (Digital Address Lighting Interface) es un protocolo de control de iluminación idóneo para crear espacios flexibles, destinados a desarrollar diferentes funciones. Cada luminaria DALI se puede controlar de manera individual. Este sistema de regulación utiliza un protocolo de comunicación bidireccional de bajo voltaje que permite enviar y recibir mensajes desde los distintos dispositivos.

The image shows two modern, cylindrical outdoor lighting fixtures, the NINA series, installed on a green lawn. Each fixture consists of a dark, possibly black, outer shell and a central, illuminated vertical bar that glows with a warm, yellowish light. The fixtures are positioned at different heights and angles, creating a sense of depth. The background is a dark, shadowed area, likely a night scene, which makes the illuminated fixtures stand out prominently. The overall aesthetic is minimalist and contemporary.

A glowing, angular light fixture is positioned diagonally across the frame. The fixture has a dark, possibly black, outer casing and a bright, warm white light source within. The light creates a strong glow and casts a soft shadow on the dark, textured surface below it. The background is a dark, mottled grey with some subtle texture and light variations.

A high-angle photograph of a modern outdoor swimming pool. The pool is lined with small, square, teal-colored tiles with white grout. The pool's edge is finished with a white, rectangular coping. The pool is surrounded by a wide wooden deck made of horizontal planks. In the background, there is a wooden bench, several potted plants in terracotta and white pots, and a white wall. Two small, circular, recessed lights are visible on the wooden deck. The overall aesthetic is clean, modern, and natural.

A photograph of a brick building facade at dusk. The building features a series of columns, each topped with a small, illuminated, white, gabled structure. The brickwork is a deep red color, and the scene is lit with a warm, golden light, likely from the setting sun. In the foreground, there is a dark grey fence with vertical panels. The word "PENN" is overlaid in white, bold, sans-serif capital letters on the left side of the image.
